Engineering Drafter Job Summary:

Drafters review architectural and structural drawings, interpret project scope documents and apply basic engineering, basic math and architectural principles to generate shop and fabrication drawings using AutoCAD software. Drafters assist in the design of building envelopes, fenestration, and other interior and exterior architectural elements including but not limited to unitized curtain walls, entrances, punched windows, coping and interior partitions. Drafters revise redlined drawings and support production control and shop personnel during the manufacturing of designed assemblies and components.

Job Requirements:

Qualified candidates have a High School diploma and at least 3 years' drafting experience OR an Associate's Degree in Engineering Technology, Design and Drafting or related field (or within 3 months of completing degree). Candidates who are proficient in AutoCAD, have curtain wall experience and can read and interpret architectural/structural drawings are preferred.

Qualified candidates also possess well developed drafting and mechanical drawing skills, excellent interpersonal skills and have successfully worked in a fast paced environment. The best candidate must be a knowledgeable team player with strong analytical and problem solving skills. If this sounds like YOU, please submit your resume, cover letter and salary requirements on our website: <http://www.pioneerglazing.com/careers/> or email us at: employment@pioneerglazing.com.

Salary: Commensurate with experience
